Happy Holidays Region II! My name is Kevin Hill and I am excited to be serving as your Communications Officer for the 2024-2025 Academic Year. I am looking forward to meeting as many members of our region as possible as working together will be the best way for us to meet our goals this year. This will be the year that Region II will shine! On another note, as we shift from finals to this winter recess, please keep in mind the importance of self care and be sure to celebrate all of your accomplishments this year!

Warmest regards,

Kevin Hill

Sierra College Advanced EMT Students Pilot Statewide Scope of Practice

by Communications Officer Region II Kevin Hill

Sierra College, located in Rocklin, California and educates approximately 16,000 students each year is one of the 14 colleges in Region II. One of their most popular CTE pathways on campus is their Health Sciences. This includes a variety of career focused programs such as Emergency Medical Technician (EMT), Advanced Emergency Medical Technician (AEMT), and Paramedic. Currently there are approximately 400 students enrolled in this three programs alone.

In November, Sacramento County announced the first and only pilot program of its kind, in which AEMTs will be testing out and expanded scope of practice for interfacility transfer (IFT) patients for one year. A scope of practice dictates the procedures and tools EMS workers may use in the field. California currently does not have a scope of practice for their AEMTs. This scope of practice will include a variety of life saving medications and diagnostic techniques previously only permitted for use by paramedics. If this pilot program is successful, the scope of practice will be applied to not only IFTs but also emergency calls. Sierra College is the only community college in the state of California and one of two locations in the state currently training AEMTs. This gives the students of Sierra College an incredible opportunity to open up my opportunities and create change for the future of California's EMS system.

Region II New Year's Resolutions

Full Activation

Currently Region II has 1 school inactive, we hope to have a fully activated Region in Spring 2025!

Collaboration

Region II is looking forward to enhancing our collaboration with colleges and hosting events within our region!

Recruitment

Our goal is to begin recruiting for next year so that students feel confident in their position for the next academic year!

Inactive College(s)

Lake Tahoe College

Happy Holidays!

2025

Region II wishes you an amazing holiday break and a happy new year! We are so excited to see what is in store for the upcoming year, and we could not do all of this without your continuous support! The SSCCC office will be closed 12/23-1/1 for a short break as well!
